

1.

Shopping Cart (Box Model)

Build the given layout using divs and box model

Create a file called index.html The layout should look like the given template [boxModel.png](#)  
use any dummy images from google

2.

Create your own resume, design should match the image given. Either keep the dummy data or you can fill in your own data, whichever you want to do. No need to match colors given, but try to match font-size.
